

**ATP 543P South, Queensland**

**Joint Venture**

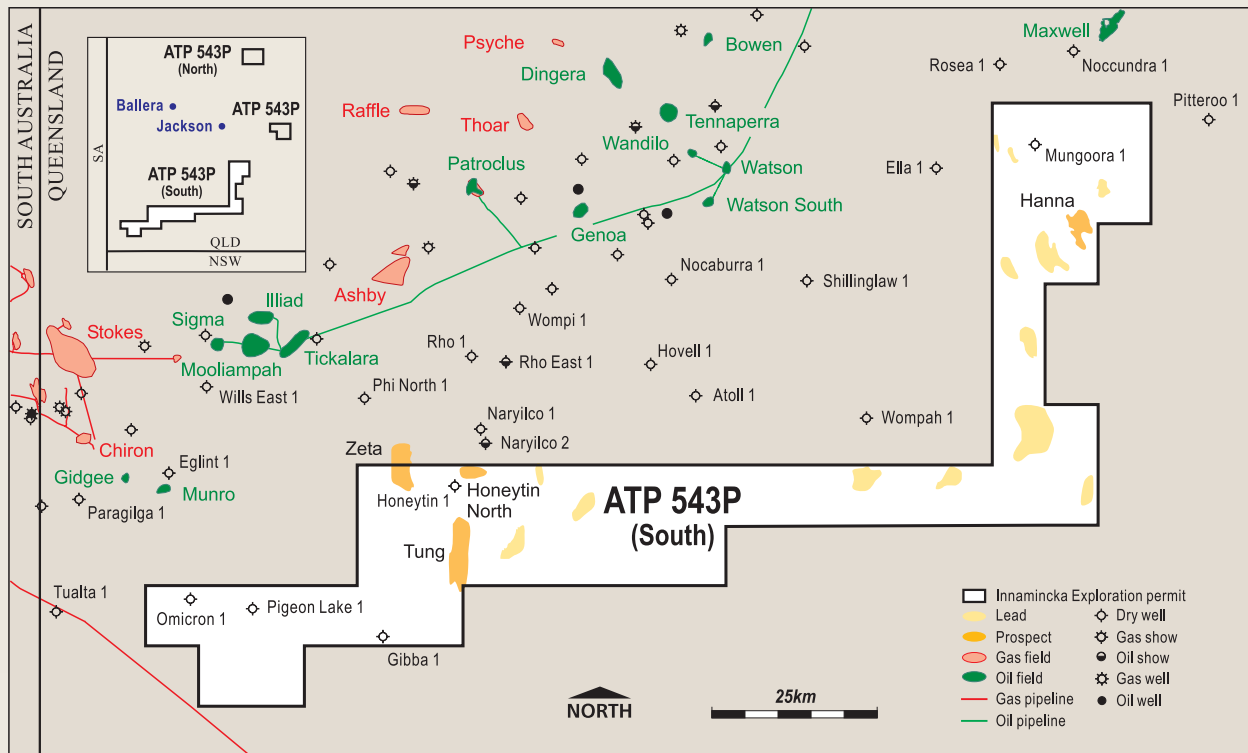

Innamincka Petroleum Limited [INP]	50% interest	Operator
Vernon E Faulconer Australia Inc [VFI]	50% interest	

**Overview**

- The permit is located some 140km southeast of Moomba and covers some 3075 km<sup>2</sup> of the Eromanga Basin in southwest Queensland.
- The western and northern parts of the permit are considered the most prospective.
- Previous exploration in the western part consists of four exploration wells whilst one exploration well has been drilled in the northern region. All wells reported minor oil fluorescence shows.
- Currently four oil prospects are mapped in the permit, three in the western area and one in the northern area.

**INP Exploration focus**

- Innamincka proposes to drill two wildcat exploration wells over the next two years to meet statutory commitments.
- Innamincka is actively seeking to farm in an additional partner in this permit.
