ANNOUNCEMENT TO ASX

Date: 19 December 2005
To: Australian Stock Exchange Limited
Companies Announcement Office
Electronic Lodgment System

Dear Sir

Daily Drilling Status Report – Pine 1 (PEL-103)

Innamincka Petroleum Limited (“INP”) reports the current status of the **Pine 1** well is as follows:

Time of Report: 06:00 hours (CSST) 19 December 2005
Well Depth: 2687 m (Well Total Depth – Reached @ 08:30 hrs 18 Dec)
Current Operation: Conducting Run # 2 Wireline logs
Weekend Recap: Completed DST 1 in the Tirrawarra Sst/Merrimelia Fm across the interval 2610 m – 2627.4 m. At this location the intersected section contained a very thin (possibly absent) Tirrawarra Sst reservoir overlaying the Merrimelia Fm. The test failed to flow/recover hydrocarbons during a 2 hour flow period, however analysis of the DST data confirms the presence of hydrocarbons in the tested interval. Initial wireline log interpretation supports a hydrocarbon column in non reservoir quality Merrimelia Fm. The well will be plugged and abandoned due to non-commerciality.
Forward Operations: Complete wireline logging operations and run in hole. Prepare to set abandonment plugs.

Participants in the PEL 103 Block Joint Venture are:

- | | | |
|---|---|-----|
| • Innamincka Petroleum Limited (Operator) | - | 35% |
| • Vernon E Faulconer Australia Inc | - | 65% |
| • Avery Resources Inc* | - | 0% |

* Farming in for 25% W.I. subject to terms of a farmin agreement
