ANNOUNCEMENT TO ASX

Date: 20 September 2007

To: Australian Securities Exchange
Companies Announcement Office
Electronic Lodgment System

Dear Sir

Drilling Report - Flax East 1 ST1

Innamincka Petroleum advises the Flax East 1 exploration well has reached a depth of 2613 metres having intersected the top of the Permian section on prognosis at 2608 metres.

On a bit change operation the drill pipe became irretrievably stuck in the hole and necessitated placement of a cement plug above the lost section. The well has been sidetracked with a kick off point of 2126 metres.

At 0.600 hours today the Flax 1 ST1 well was at a depth of 2468 metres and waiting on drilling rig repairs.

The well is prognosed to reach a total depth of 2820 metres and is designed to test the saddle between the Flax and Juniper oilfields.

Daily updates of drilling progress are posted also on the company website www.innapet.com.au

Participants in the project are:

Innamincka (operator)	75%
SCGAU	25%

Yours sincerely

Innamincka Petroleum Limited

Leni Stanley
Company Secretary
