Dear Sir

Drilling Report - Flax 7 ST1

Innamincka Petroleum advises that as of 06:00 hours this morning, the Flax 7 ST1 development well had reached a total depth of 2812 m. Current operations are running wireline logs.

Core 1 was cut and recovered from 2721m - 2739m.
Core 2 was cut and recovered from 2739m – 2757m.

Elevated gas readings and oil fluorescence were reported through the overlying Permian section. These shows are comparable to those encountered in the nearby wells in the Flax field.

The well is prognosed to reach a total depth of 2830 metres over an operational period of 22 days.

Daily updates of drilling progress are posted also on the company website www.innapet.com.au

Participants in the project are:

Innamincka (operator)	75%
SCGAU	25%

Yours sincerely

Innamincka Petroleum Limited
